

CURRICULUM VITAE

Personal Details:

Name : Krishna Kishore Annapureddy
Designation : B.Tech.(Final year student),
Department of Computer Science & Engineering,
Indian Institute of Technology Guwahati
Date of Birth : 11-08-1985
Sex : Male
Nationality : Indian
Mailing Address : Room No.: 106, Hostel Manas,
IIT Guwahati, Guwahati-781039
Assam, India.
Email address : k.kishore@iitg.ernet.in, akkishore@akkishore.name

Academic Details:

order: (Examination :: Year :: Institution :: Subjects/Field :: Performance)

(i) ICSE Exams(Class X) :: 2001 :: Loyola Public School, Guntur, Andhra Pradesh ::
Mathematics, Social Sciences, General Sciences, Computer Sciences, English,
Hindi :: 91% Marks aggregate.

(ii) IPE Exams(Class XII) :: 2003 :: St. Patricks Junior College, Hyderabad :: Mathematics,
Physics, Chemistry, English, Sanskrit :: 82.3% Marks Aggregate

(iii) B.Tech. :: 2004-(till date) :: Indian Institute of Technology, Guwahati
:: Computer Science & Engineering :: Cumulative Performance Index 8.31 out of 10

Skills & Proficiencies:

Programming Languages : C, C++, Java, VB, SQL, Assembly
Scripting Languages : PHP, Bash, Perl
Operating Systems : Win32, Linux, Solaris
Other libraries : OpenGL, MPI

Projects:

1. Design and implementation of a 4-bit CPU with a particular instruction set under Dr. Jatin Kumar Deka, Department of CSE, IIT Guwahati.
2. Worked as a programmer for a collaborative project between IITG and NICT-Japan. The project was headed by Prof. Sukumar Nandi, HoD, Department of CSE, IIT Guwahati.
3. Created an Online Judging system like the ACM Submit-O-Matic and Sphere Online Judge (SPOJ). This project has been successfully used to conduct the Online Programming contest in our technical festival.
4. Enhanced the Pintos educational kernel. Guided by: Prof. Gautam Barua, Director, IIT Guwahati.
5. Created a compiler for 'C' like LALR(1) grammar that generates 'gas' compatible assembly code. This code is then linked with standard libc/glibc to generate executables.
6. Created an FTP server/client suite as a part of networks course.
7. Student Developer, Google Inc. - Google Summer of Code program, May - August 2007. Successfully incorporated 'readahead' feature into Haiku kernel, mentored by François Revol. (<http://code.google.com/soc/2007/haiku/appinfo.html?csaid=501D4AD839147F5E>)
8. Currently working on porting Kaffe JVM to Minix3.
9. Currently working on Cooperative Multi-Robot systems as my BTech thesis project under the supervision of Dr. S B Nair.

Other achievements:

1. I was selected into a team to represent my institute for ACM-ICPC 2005.
2. Secured first place in Access Denied, the inter-college hacking contest, in Techniche – 2006 and in Techniche – 2007.

Extra curricular activities:

1. Served as a technical coordinator of CSEA (Computer Science and Engg. Association) and was incharge of ACM subchapter of CSEA during 2006-07.
2. Served as Campus Ambassador from my institute for Sun Microsystems, India during Jan - Aug '07.
3. Designed and management of Techniche 2007 website and also conducted the events: ByteCode (programming contest), Bluff (game coding contest), Virtual Stock Market.
4. Currently serving as General Secretary, CSEA (2007-08).
